## REPORT OF THE POLICE CHIEF

---

This is the fourth annual report of the Candia Police Department that I am privileged to prepare.

The year 1968 was by far the busiest of the past three due to the increase in almost every duty that the department is summoned to perform.

In order to broaden our knowledge, the men and women of the department have attended courses on all phases of law enforcement and it's duties. The Auxiliary, as well as the Regular police officers, hold diplomas from the Rockingham Law Enforcement Academy. These courses were taken at no expense whatsoever to the town. These men and women have donated their time and effort to attend these classes in order to bring to the people of Candia a better Police Department. To mention a few of the courses that were taken; Rules of Evidence; Law of Arrest; Uniform Traffic Code; Criminal Law; Narcotics; Finger Printing; In-Custody Interrogation; Criminal Investigation. These are just some of many courses that all the officers have taken in 1968.

Our Regular Police Force consists of five men and one woman. Our Civil Defense Auxiliary Force, at no expense to the town, consists of three men and one woman.

Many people have questioned the reason for having policewomen. A recent Supreme Court Ruling has made it a necessity to have a policewoman in the department in order to investigate cases which concern the involvement of females in search and seizure.

Our Radar has been most effective in 1968, it has shown a decrease in Motor Vehicle violations especially in fatal accidents.

The primary objectives of this department are: (1) To bring police and members of the community together in a continuing relationship in order to reduce suspicion, misunderstanding, and hostility and to discover their mutuality of interest and responsibility; (2) to assist in the professional education of police officials with emphasis on the social, psychological, essentially human dimensions of police work; (3) to introduce citizens at large to police problems, the role of law enforcement agencies, and the total community's responsibility for law enforcement.

At this time I would like to express sincere appreciation to the Board of Selectmen, my fellow officers and especially to the citizens of Candia for their understanding and facilities that they have provided to make this department's job easier, thus making Your Town an orderly, safer and more enjoyable place to live in.

## REPORT OF FOREST FIRE WARDEN AND DISTRICT CHIEF

---

People cause fires. Our records show that the number of fires increase in an area as the population increases and our state is growing tremendously. This means that we all must be aware of fire causes and do our best to prevent their occurrence.

When we are very young the lighted match is an adventure, burnt fingers and a dropped match is another fire. A little older we like to have a woodland cookout, or go out by ourselves for a smoke but fire and forests get together for another statistic. We adults like to clean up in the spring, burn the old debris and the dead grass, result - escaped fires and much personal expense.

With new homes and summer cottages located in woodlands and with abandoned fields and forests crowding the back yard of our villages' streets, it is necessary that everyone be aware all through the fire season, which comes with the disappearance of the snow, of the need to be careful with outdoor fires and fire sources.

The following action will help:

1. To teach our children the danger of lighted matches.
2. To *never* discard lighted smoking material from a car or while walking through fields or woods.
3. To safely dispose of rubbish preferably at the town dump. If you must burn-

- a. You need a written permit from the town fire warden for *all* debris burning except when the ground is covered with snow. Cooking fires in outdoor fireplaces or in charcoal brasiers in your own back yard is permitted on notification of the warden.
  - b. The warden is forbidden by regulation to allow burning of household rubbish on *grass* by householders between 9:00 A.M. and 5:00 P.M.
  - c. Have equipment on hand to control the fire *before* you light the match.
4. Promptly report any fire out of control to your fire warden or fire department.

Help to keep our town out of the fire occurrence column and save your tax dollars for useful purposes.

## REPORT OF CIVIL DEFENSE UNIT

---

The Civil Defense Unit in our town is still making steady progress.

A Radiological Monitoring Refresher Course has been conducted by the Department of Education out of Concord to keep us up to date on the latest Monitoring devices and procedures, thus making us qualified to receive our Radiological Monitoring Equipment consisting of fifteen pieces of electronic equipment that we are now using at no charge to the town. This equipment that we now have completes our Radiological Monitoring Group.

We are pleased to announce that our Civil Defense truck is fully equipped to cope with any Natural or Nuclear disaster should any occur.

The program papers and progress report for our local Civil Defense Unit have been submitted and approved by the Department of the Army, Office of Civil Defense. This enables us to receive surplus property from Concord.

We have completed a Personal and Family Survival Course for the public with a very good attendance record. Each person attending the full course received an Adult Education Certificate in Personal and Family Survival. We will continue to have these courses through the year at no cost to anyone.

During the past twelve months one warning exercise was received. The State-Wide and Nation-Wide CHECKERBOARD test. Two warnings were exercised, although we received only one due to the breakdown in our communications link in October of 1968.

I would like to extend my sincere thanks to all Civil Defense Personnel, the Board of Selectmen, the School, and the citizens that attended the classes, for volunteering their time and services for this worthy cause.

## REPORT OF THE SUPERINTENDENT OF SCHOOLS

---

This is my last report. When it is read, I shall be attending to the affairs of life normally associated with retirement. However, one cannot give up a role easily which has been played for forty years without having a few thoughts about the past, present and future. While it is pleasant to reminisce, the fulfillment of tomorrow's dreams can only be realized through positive action taken today.

Through the years, the process of education has moved from the little red school house, which at that time met the needs of many, to a refinement and sophistication that can only be accommodated in a larger school. The child who completed the eighth grade yesterday now stays on until he finishes high school. In some areas of the country, the community provides an additional two years of education at public expense. The complexities of the modern world place a premium on education which can only involve greater expenditures as the years go by.

At one time, the local school district assumed full responsibility for financing its educational system. With the passing of time, the demands that have been placed on the community are taking an increasingly larger share of the tax dollar, to the point that the property owner is required to shoulder a proportionately larger burden. Whereas teachers would accept what a local district would pay, or move on, a mobile population has teamed up with modern means of communication to break down town boundaries. Teachers, with leadership provided through their associations, are acting in concert in the presentation of demands which tend to be uniform from dis-

trict to district. As a consequence of this, school boards have been haunted with the specter of costs increasing more rapidly than ability to pay.

Basically, education is a state function, with school districts serving as political subdivisions of the state. The state board of education has powers of management, supervision and direction over all public schools and may make rules and regulations necessary to secure their efficient administration. From time to time, statutes have been enacted which also contribute to a framework within which local boards operate. The purpose of such regulation is to insure that all children living in the state receive an equality of educational opportunity. However, the scope of education today exceeds that which must be provided by law and while every child has the same opportunity in theory, in practice this is not the case.

The time is now at hand when, more than any other time in history, it is necessary for the state to extend itself to a greater degree than it has in order to promote educational opportunity. There is a wide discrepancy in the ability of towns to meet costs, and the town which is rural in character does not have the same resources as does the one with a broad tax base provided by business and industry. If the state is not to abdicate its responsibility, it would seem quite evident that it must at least fully implement those statutes which now exist so that the local taxpayer will not be called upon incessantly to make up the difference necessary to maintain an adequate educational program. In turn, it would seem appropriate to consider very seriously the methods of raising revenue required to implement these statutes. Unless these steps are taken, inequality of educational opportunity not only will continue, but it can only become greater in the years ahead.
